

The main objective of this project is to analyze retail sales data to gain actionable insights that will enhance the performance of the Coffee Shop.

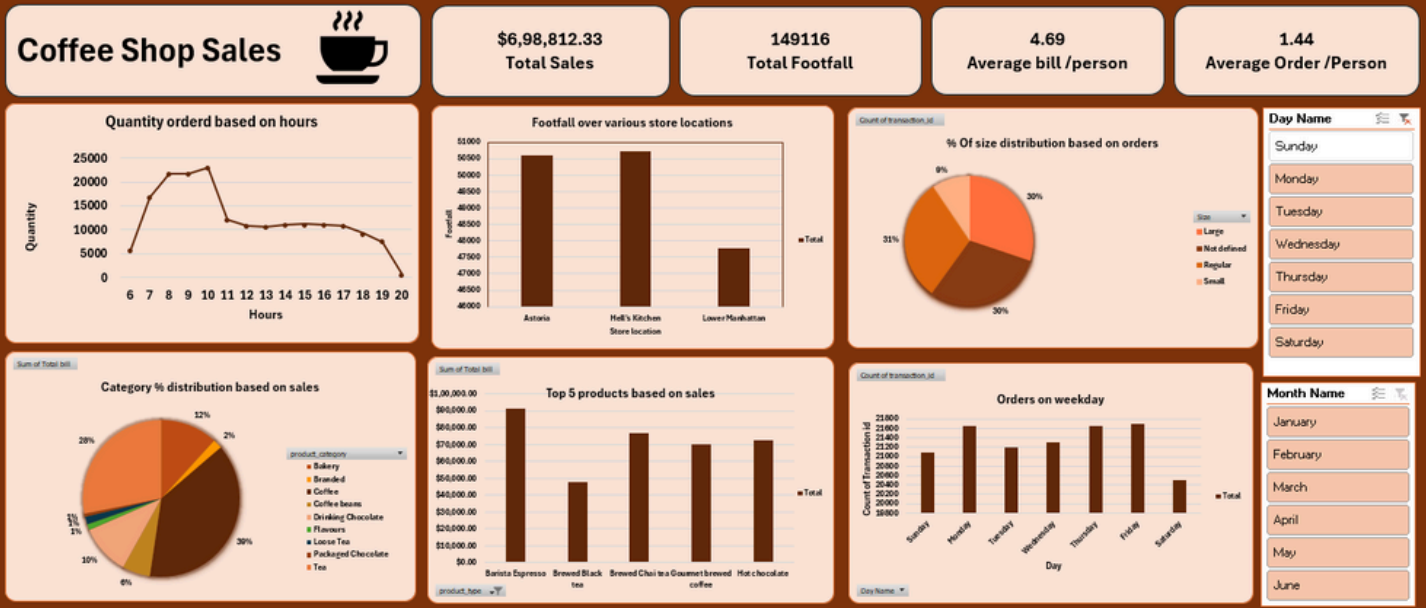

Start Your Day With Coffee

Recommended Analysis

- How do sales vary by day of the week and hour of the day?
- Are there any peak times for sales activity?
- What is the total sales revenue for each month?
- How do sales vary across different store locations?
- what is the average price/order per person
- Which products are the best-selling in terms of quantity and revenue?
- How do sales vary by product category and type?

Key Metrics Overview: - Total Sales: \$698,812.33 - Total Footfall: 149,116 customers - Average Bill/Person: \$4.69 - Average Orders/Person: 1.44

Key Insights from the Dashboard:

- 1. Sales by Product Category: - Top Category: Coffee (39%) - Tea (28%) and Bakery (12%) follow - Insight: Coffee and Tea account for 67% of sales. Low-performing items may need reevaluation.
- 2. Top 5 Products by Sales: - Barista Espresso, Brewed Black Tea, Brewed Chai Tea, Gourmet Brewed Coffee, Hot Chocolate - Insight: Focus on maintaining quality and promoting these high-revenue items.
- 3. Sales by Size of Order: - Regular (31%) and Large (30%) dominate; Small (9%), Not Defined (30%) - Insight: Popular sizes are known, but undefined entries suggest data quality issues.

4. Store-wise Footfall: - Highest: Astoria, followed by Hell's Kitchen and Lower Manhattan - Insight: Target marketing and promotions based on location performance.

5. Order Timing - Hourly Trends: - Peak Hours: 8 AM to 11 AM - Insight: Promote morning offers and combos to boost early-day sales.

6. Weekday Analysis: - Highest Orders on Friday, Lowest on Monday - Insight: Introduce Monday deals to balance footfall.

7. Monthly Sales Trends: - Covers January to June - Insight: More complete data could support seasonality and planning analysis.

Recommendations:

1. Focus on high-selling categories and products.
2. Improve data accuracy, especially in order size.
3. Leverage top-performing store locations.
4. Run time-targeted promotions for peak hours.
5. Encourage sales for underperforming categories.
